First launched in 1999, formerly under the name mond*arc, arc has grown to become the number one international lighting in architecture magazine in the world.

We know the lighting specifier community has high standards. That’s why arc features the best photography, the best writers, high-quality paper and a large format that shows off its projects in the best possible light. arc is highly respected for its independence and is a must read within the lighting design and architecture professions.

Lighting has become a major defining component in the built environment’s design and is an important aspect of many architectural, retail and commercial projects. In a market currently valued globally at approximately $100 billion, arc is at the cutting edge of the industry, consistently featuring the best architectural projects, the most innovative designers and the latest technology advances.

If your target audience is the lighting designer, the architect or the specifier then arc is the ideal vehicle to reach this market. arc is a high quality design magazine that is read by the top specifiers in the world. By advertising, your message will be delivered to the real decision makers in the lighting industry.

Welcome

arc is the leading international publication focused on lighting in architecture.
arc’s publishing ethos is “On Paper, On Purpose”. We are proud of our high quality printed magazine and this is our focus.

arc’s focus is print media. The famous budgeting strategy “On Paper, On Purpose” is equally as applicable to publishing when it comes to high quality design magazines.

Much like the wrongly predicted demise of radio when first cinema and then TV came on to the scene, print is still going strong in the quality business-to-business magazine sector.

arc isn’t a newspaper where snippets of news are easily Googled online. arc isn’t a low quality B2B publication that doesn’t hold the interest of influential designers.

Published seven times a year (including ILDS, the International Lighting Design Survey), arc delivers insights into inspirational architectural lighting projects and the designers behind them. In addition we report on the latest technology breakthroughs that drive the industry forward.

We deliver arc to every lighting design practice in the world (over 1,600 out of the 12,000 circulation as well as architects, specifiers and dealers). And, because they are designers, they appreciate looking through the well-designed pages, viewing the beautiful photography and reading the well-informed articles.

They want to read arc and they look forward to it being delivered. By associating your brand with arc you will be tapping in to the intellectual and prestigious space that is occupied by a high quality design publication and high quality designers.
Online

**arc’s** online offering provides bespoke news and special features supported by regular e-newsletters direct to designers’ inboxes.

**www.arc-magazine.com**

*arc’s* website is not just an online replica of the magazine, instead it delivers news content of a more immediate nature. This is delivered in a visually appealing, easy-to-digest format with the addition of high quality picture and video content.

**Digital Edition & App**

*arc* is also available as a digital edition available online (via our website) and as an app (from the App store and Google Play). Benefits of this include: the immediate delivery to all readers wherever they are in the world; the ability to search the magazine for relevant information; bookmarking of important articles; and an online archive of previous issues. All adverts placed in the print edition of the magazine will also appear in the digital editions.

**e-newsletter**

*arc’s* website is supported by a monthly email newsletter distributed to a database of 16,000 readers. Each newsletter carries announcements of the latest industry news, product launches and events.

**Social Media**

*arc* has a social media presence on Twitter, Instagram and Facebook. Our editorial staff regularly post news stories, events they attend and design inspiration from and for the industry. The content is of high-quality and reflects the standards held by the magazine. It is regularly maintained and an important add-on to the magazine.

There are many opportunities to market your company through our online platform. Please contact us to discuss.

**[d]arc awards**

...celebrating the best in lighting design

Since its inception in 2015, the [d]arc awards have grown from strength to strength. The [d]arc awards are the only international awards that celebrate and focus on lighting design, covering all areas of hospitality, commercial projects and private residential projects, as well as the latest art installations, events and product designs. And to make sure the right people win, we use a peer-to-peer voting system so you can be sure that the arc teams ‘favourites’ are not guaranteed winners!

With 90% of the awards party guest list made up of designers, the best way for a supplier to get involved in the awards is to become a sponsor - especially as the event is also streamed to a global audience.

**[d]arc room**

...the leading lighting event for London

[d]arc room is London’s only creative lighting specification exhibition. Thanks to our respected position in the industry, we are able to organise events with guaranteed visitor results.

[d]arc room is a curated, creative exhibition for specifiers and designers that brings together exhibitors, workshops and talks, all centred around lighting design. The [d]arc room livestream conference is streamed to a global audience of specifiers with all exhibitors having an online presence as well as an in-person one.

As an exhibitor your product is showcased in a gallery setting allowing visitors to better experience your products. This focused approach helps to ensure the content of the exhibition is accessible to all.

**[d]arc sessions**

...connecting suppliers with specifiers

[d]arc sessions is a series of events connecting the people involved in lighting specification projects around the world. Hosted at an intimate, exclusive resort location, [d]arc sessions is a new way to specify products, source projects and share ideas. Hardwired for today’s fast-changing world, [d]arc sessions creates space for our guests to meet safely on an intimate scale.

In an era when every business trip must be accounted for, the [d]arc sessions pledge is simple: Suppliers will only meet specifiers actively working on international projects.

The International Lighting Design Survey (ILDS) is our annual worldwide listings edition for the architectural lighting industry. As well as being distributed to our subscription base, the ILDS is available at every major lighting trade show where arc is participating in 2021.

The ILDS features a comprehensive directory of architectural lighting designers, manufacturers and distributors as well as information about international trade shows, lighting associations and lighting education courses. Available as a printed publication and in digital format, this is the directory that the industry adores and is a valuable tool for those involved in lighting specification.

In addition to the directory we publish data in our survey of lighting designers to measure the state of the lighting design profession. We shall be repeating the survey every year, continually adding data to give a better picture of the industry. This will ensure that the ILDS will become a valuable barometer as to the health of the lighting design profession and the architectural lighting industry.

We are continually collecting data so if you are interested in being involved please contact any of the arc team. All data is treated confidentially and quotes are only included in the report with permission from the respondents.

Stand out from the crowd! Manufacturers and lighting designers can increase their visibility in the ILDS by booking an ‘Enhanced Entry’. This includes a logo, a 50-word company description and contact details in bold.

An ‘Enhanced Entry’ in the ILDS costs £300 or is free for advertisers in the issue.

Testimonials

“arc is a way to stay in open connection with the lighting design community; I feel a member of this family and appreciate the warm perspective put in every article. I love the printed edition!”
Víctor Palacios, IALD Director
Ideas en Luz, Mexico

“Every lighting designer should read arc. In fact, anyone associated with light should read it. It is visually stimulating with in-depth articles on design approach and technology. My team are always proud when they see their work published.”
Michael Grubb, IALD Creative Director
